MEMORANDUM FOR: OSR

It seems likely that some of your colleagues who are working on SALT and MBFR may have encountered these individuals and formed some impression of them. If so, could you ask them to jot down a few comments? Paul Walsh would like us to expedite this, so could we have a response in the next day or so?

Thanks,

Called to tell him we drew a blank. He said action had been passed to DPA: Bleske to respond that it would be inappropriate for us to comment.
